

## October is Breast Cancer Awareness Month

September 22, 2015

The Mount Carmel Senior Living community is proud to support the fight against Breast Cancer. Some of our employees and residents have experienced breast cancer which has taught us the importance of doing our part to find the cure.

Each year, our employees endeavor to create Breast Cancer awareness and raise funds. This year, employees and friends have donated gift baskets to be chanced off. Displays and seasonal decorations have been made which have been placed throughout our facility. Our residents are also contributing their talents by decorating pumpkins to help raise funds.

I would like to thank those who have done the organizing, donating and decorating for this worthwhile cause. Your contributions will find the cure!

Sincerely,

*Steve*
